Melissa Fowler-Bradley, Court Executive Officer - Shasta County **Superior Court** Administration
Elin Klaseen, **Public** Participant
Charles Alexander, **Public** Participant
Holly Hoekstra - **Public** Participant
Robert Wharton - **Public** Participant

Meeting Overview:

The meeting was called to order at 3:00 p.m.

Jeff Gorder reported that there has been no impact to date– no revocation cases. The Public Defender's office has hired an extra help attorney to work on cases as needed.

Don Van Buskirk reported that there has been an increase in parole holds for technical violations. There was general discussion regarding how Parole is currently handling parole violations compared to how they were handled in the past.

Don advised that he was retiring and that Captain Anthony Bertain would replace him at the jail.

The Sheriff's Office would like to purchase a new Jail Management System next year using AB 109 funds. The recruitment process is ongoing. The department recently lost four Correctional Offices, so they are now working to fill 12 vacancies.

The District Attorney's Office has seen an increase in parolee sentencing, with some split sentences.

The Court is working to adapt to sentencing multiple cases with the new parolee population. They are manually keeping track of split sentences.

Probation has promoted two Deputy Probation Officer IIIs to Supervising Probation Officers. The recruitment process is ongoing to fill the department vacancies.

Probation continues to work with their HHSA partners in processing and assessing AB 109 parolees. Court ordered treatment is a problem due to the lack of treatment resources, especially in the

intermountain area. Please let Chelsey know of any Intermountain treatment resources or any county sober living homes for females.

Several of the parolees that have reported are illegal aliens that have been released by Immigration and Customs Enforcement. They are especially problematic as they have no identification, etc.

Of the two bench warrants issued by Probation, one is still active. The other was for a failure to appear and the parolee was arrested, spent a few days in jail, and will have to perform ten days of community service.

There have been 13 referrals to Alcohol & Drugs, of which five were processed through Michelle at Alcohol and Drugs. There have been no mental health referrals.

Work on the Request for Proposals for the Assessment/Day Reporting Center is ongoing. A total of 6,000 square feet will probably be necessary to accommodate both the assessments and the reporting center. A 6,000 square foot site in the Downtown Mall is being considered. As the program grows there will be consideration of opening other sites throughout the county to provide services.

Chelsey distributed a handout listing various types of data that could be gathered. Please check with your staff to determine if you have mechanisms in place to track any the information and relay that information to Chelsey. Add or subtract from the list. The Data Committee has been meeting. A representative from each agency is needed on this committee. Currently Probation, HHSA, the District Attorney, and a community participant are attending meetings.

The Probation contract with BI for home electronic monitoring (HEC) will end mid January. There was discussion about starting mandatory monitoring in the interim. The existing contract would have to be amended. The proposal would have to go to the Board of Supervisors (BOS) the first or second week in December (6th or 17th). The committee needs cost details.

A motion was made to encourage Probation to submit a resolution to the BOS making HEC mandatory and amending the BI contract for Probation to take over payments effective as soon as can be arranged, and report back to the CCPEC as soon as possible the financial implications of doing so.

The CCPEC meetings for November 30th and December 14th have been cancelled. **CCPEC will join the CCP meeting scheduled for 3:00, on December 7th at National University.**
