Cleo Tocmakidis - Shasta County **Probation**
Pete Hansen - City of **Redding Police** Department
Roger Moore - City of **Redding Police** Department
Sheila Ashmun - Shasta County **Sheriff's Office**
Don Van Buskirk - Shasta County **Sheriff's Office**

Meeting Overview:

The meeting was called to order at 3:05 p.m. Introductions were made.

Committee members shared information:

- Liz Leslie (HHSA) is working on the Shasta County Public Safety Realignment Implementation Plan. If you have information that you would like to have included in the plan, please forward the information to Wes Forman.
- Some committee members visited a day reporting center in Napa that has been operating since 2009. The center has two programs. The first program is for offenders who are no longer in custody. Initially, the participant reports to the center daily. The center is open from 8:00 a.m. to 8:00 p.m. and is open throughout the year, closing for a few holidays. The programming includes drug and alcohol abuse, cognitive behavior, and motivational interviewing sessions, and employment and education components. Participants work through various steps/phases at their own individual pace until they complete the program. The second program is an in-custody setting. Participants are selected and agree to take part in the program and are housed in a separate wing in a dormitory rather than cells. The programming is the same as the non-custody component. When they are released they continue their program where they left off prior to their release. There was general discussion regarding contracting for a day reporting center or building our own center with local resources. There were concerns that we would potentially be dismantling local service providers if we contracted with an outside provider.

If we chose to contract for a center we would provide the space and they would provide the rest of what was needed. The costs are:

50 participants	=	\$ 540,000 per year
100 participants	=	\$ 882,000 per year
150 participants	=	\$1,170,000 per year

- Chelsey Chappelle presented the Probation Department staffing needs through fiscal year 2013.
- Sheila Ashmun presented a plan for a team approach to create a supervision/compliance check team to work with Probation/Day Reporting Center staff to identify and focus on non-compliant parolees. This team will potentially investigate ongoing crimes to be committed and make arrests.
- Marta McKenzie reported the need for a more robust assessment process focusing on basic needs, substance abuse, medical care, etc., and the possibility of doing much of the assessment prior to the release of the parolee. This would require traveling to the prisons. There was general discussion regarding the needs of the parolees, including housing and medical services (not currently being provided by parole).

It was noted that parole currently does not release mentally ill offenders with gate money. Parole picks them up and provides transportation to the release county.

- Don Van Buskirk provided costs associated with various local custody options:
 - o Expand the jail to provide beds dedicated to the prison/parolee population that needs to be incarcerated (open the entire floor or half a floor of the jail).
 - o Expand the work release programs to accommodate 500 participants
 - o Expand the use of home electronic monitoring (currently 100).
 - o Create a house arrest/SO parole program

There was general discussion regarding the format for the CCP meeting scheduled for August 31st.

The next meeting scheduled for the CCPEC is September 7th, at **2:00** p.m., in the Public Safety Conference Room, located at 1525 Court Street, 2nd Floor.
