BUILDING DIVISION
1855 PLACER STREET, SUITE 102
REDDING, CA 96001**

**AGREEMENT FOR LIMITED PARCEL RESEARCH FOR A RESIDENTIAL
SOLAR PHOTOVOLTAIC SYSTEM**

Owner's Name(s): _____

Real Property Address: _____

Assessor's Parcel Number: _____

The purpose of this agreement is to limit parcel research and potential remedial permitting and/or construction on existing structures and parcels in order to expedite the permitting process and facilitate construction of a residential solar photovoltaic system (the "System") to promote the benefits of renewable energy for individuals and the community in a timely manner and in accordance with the goals and objectives of Shasta County and the State of California.

In pursuit of that stated purpose, I (we), _____,
the undersigned and owner(s) of the Real Property described above hereby acknowledge, understand and agree as follows:

1) That the parcel research conducted by Shasta County Department of Resource Management ("the Department") prior to building permit approval for the System shown on the attached Exhibit A, and any necessary remedial permitting and/or construction revealed by such research, will be limited to the structure or ground area on which the proposed System will be installed and that future research of the parcel may identify structures, uses or other conditions that may not be compliant with the Shasta County Code and may require correction by the property owner(s).

2) That the structure or ground area on which the System is to be installed shall be compliant with all applicable provisions of the Shasta County Code, and any remedial permitting and/or construction necessary to accomplish said compliance shall be undertaken and completed by me (us) prior to or concurrently with the installation of the System as authorized by the Shasta County Building Official.

3) That except for the structure or ground area on which the System will be installed, the issuance of the building permit for the proposed System, and any site visit(s) and inspection(s) performed in relation to the System do not constitute an acknowledgement or approval by the County of any existing or future structure, use or condition on the parcel that may not be compliant with the Shasta County Code, or forfeiture of the Department's obligation and authority under law to require code compliance for any such non-compliant structure, use or other condition that may exist now or in the future on the parcel.
