Site name/AQS site #: _____	Monitor: _____
Site name/AQS site #: _____	Monitor: _____
Site name/AQS site #: _____	Monitor: _____

IV. Public inspection

Please list how you intend to fulfill the requirement for public inspection. Note that the requirement is for public inspection and not public review and comment. Region 9 staff have stated that a possible way to meet this requirement would be to have the report on a web page, along with a hardcopy available for inspection. Public notification is another part of this, a part which has not been discussed much. Region 9 staff intend to provide more guidance on this requirement in the next few weeks. At this time, the ARB is planning to have the report available on a web page and as a hardcopy at our headquarters, and to notify the public via existing listserves.
