Mental Health Services Act invites the community to review progress and plan for the future

SHASTA COUNTY – The Mental Health Services Act Program will hold a meeting to review the MHSA 2017 Three-Year Program and Expenditure Plan on **August 29, from 2-3 p.m., at the Redding Library Community Room, 1100 Parkview Ave.**

Participants will have the chance to learn about MHSA, program progress, and give input into changes through this stakeholder process.

This workgroup will meet quarterly to provide input and guidance for planning, implementation and oversight of MHSA programs and services. It is open to anyone who wishes to participate.

In 2004, Proposition 63, the Mental Health Services Act, went into place statewide. This Act imposes a 1 percent income tax on personal income in excess of \$1 million.

Through the California Department of Mental Health, MHSA provides increased funding, personnel and other resources to support county mental health programs. Shasta County Health and Human Services Agency oversees many local MHSA programs that impact the mental health and well-being of children, transitional aged youth, adults, and older adults, in our county. The input of many local community members, including this stakeholder workgroup, is vital to the planning and development of these programs.

Come be part of the process!
