ABOUT US

Invo HealthCare is the leading behavior health and therapy organization in the country. Specializing in both community and school-based services, we work with children and families from birth through 21.

Invo has a rich 25+ year history of meeting the needs of the children, families, community agencies and school districts we partner with, driving positive outcomes through evidence-based best practice services.

We are unique in that we provide a comprehensive and collaborative array of services, supporting the whole child. Our organization is comprised of some of the best therapists, educators, and operators in the country exclusively focused on helping children of all ages learn and grow.

Behavior and mental health support services designed to drive positive outcomes

WHY IMPACT?

This unique wrap-around program addresses behavior that is disruptive or volatile. Our professionals focus on addressing underlying emotional, psychological, and behavioral needs while teaching functional alternative behaviors with a pro-social and pro-academic focus. These services equip the youth with the skills to assess, alter, and maintain healthy living and learning styles at school, at home and in the community.

Licensed Social Workers

Board Certified Behavior Analysts

Mental Health Counselors

Substance Abuse Counselor

OUR SERVICES

Through our revolutionary IMPACT model, we are partnering with elementary, middle and high schools to implement an integrated support service delivery program for referred youth. IMPACT employs dynamic professionals to assess and treat significant mental and behavior health issues.

We offer a comprehensive array of services:

- Screening/Assessment
- Individual Counseling
- Family Counseling
- Counseling for Substance Abuse
- Parent/Teacher Consultation
- Case Management

We provide individual-focused, wrap-around behavior and mental health services that drive:

- Significant decrease in behavior incidents
- Flexibility in program design to service the youth in school, community and home
- Provided at no cost to the youth or their family
- Meaningful improvements in the youth's outcomes
- Outcomes validated by Clemson University's Center for Behavior Analysis, a Research I University
