Meeting Overview:

The meeting was called to order at approximately 1 p.m. Introductions were made.

Wes Forman presented an overview of AB 109 and the progress of the CCP to date for new attendees.

Wes also provided an updated report on SB 678 implementation, progress, and current year allocation. SB 678 funded a Cal EMA grant for evidence-based practice supervision programs, and was designated for creating or saving jobs. Probation saved a Probation Officer position assigned to the domestic violence caseload, and a Senior Staff Services Analyst assigned as a project manager for the Northern California Probation Consortium. Probation staff was trained in motivational interviewing. The grant was also used to purchase a validated risk assessment tool (STRONG). The use of the tool allows for case planning tailored to each individual's risk and need. The allocation for FY 2011-12 is \$264,224, and the final year allocation is \$82,282. These funds are included in the adopted Adult Probation budget and will cover four full-time deputy probation officers assigned to high-risk caseloads. Any remaining funds will be used to provide motivational interviewing for new officers.

The group reviewed and discussed the proposed implementation strategies and related funding noted in the draft Implementation Plan for Supervision, Custody and Alternatives, and Assessments, Programs, and Services.

There was general discussion regarding programming, potential locations for the assessment center and the impact on surrounding neighborhoods, and concerns about enough jail space. Some consideration will be given to the idea of providing evidence-base practice services to the jail population to help with the transition from jail to the community.
