No. 610533

June 23, 2022

Subject: **Notice of Availability and Intent to Adopt a Mitigated Negative Declaration
CSA No. 17 Wastewater Collection and Treatment Improvement Project**

To Whom It May Concern:

This notice is to advise interested parties that a Mitigated Negative Declaration has been prepared for the CSA No. 17 Wastewater Collection and Treatment Improvement Project and is available for your review. This information is being circulated in order to solicit comments from public agencies and interested members of the community on environmental issues related to the scope of the Mitigated Negative Declaration.

Project Summary

Following adoption of the MND, the County determined that revisions to the project were required. The Addendum addresses improvements to the Crowley Creek Lift Station, including replacing existing pumps and installing a shade structure over the electrical controls; replacing an additional ±270 feet of 8-inch sewer pipe with 10-inch sewer pipe; replacing up to ±380 feet of 12-inch sewer pipe; and repairing two additional manholes. Additionally, some of the water lines addressed in the original project documentation would be upsized to better accommodate flow volumes. The improvement areas are not included on any list of hazardous waste facilities/sites pursuant to Section 65962.5 of the California Government Code.

Project Review Period

The 30-day public review period for the Mitigated Negative Declaration extends from June 23 to July 23, 2022.

Mitigated Negative Declaration Availability

A copy of the Mitigated Negative Declaration is available for review at the following locations:
