
GENERAL REQUIREMENTS

- Applications must meet eligibility criteria established by state guidelines
- Maximum grant amount for any project may not exceed \$100,000
- Emissions reductions through these project must be surplus to all local, state and federal requirements
- Engine/equipment must be operational prior to acceptance in a program
- Equipment must remain operational for the entirety of the project life
- Any equipment being replaced must be destroyed, applicant must show proof of destruction

HOW TO APPLY

1. Visit the webpage below to download and print an application:

<http://www.capcoa.org/moyer-rural-assistance/>

2. Get an itemized quote for new engine/equipment.
3. Complete application and submit along with all supporting materials to CAPCOA (mail, email, or fax) by the application deadline.

PROJECT SELECTION

1. Applications are ranked by cost-effectiveness (\$/ton of avoided pollutant).
2. Eligible projects will be chosen based on cost-effectiveness, geographic location, and previous applications received.

CARL MOYER RURAL ASSISTANCE PROGRAM

Provides monetary incentives to individuals, private companies, or public organizations, that clean up heavy-duty engines more than required by California air quality regulations

March 2016

Rural Assistance Program: CAPCOA accepts applications on a rolling basis. We are currently accepting Year 17 applications. The deadline to apply is June 30, 2016.

District Programs: Many air districts also run their own Carl Moyer programs, see below link for district websites, and district directory for contact information.

ELIGIBLE PROJECT TYPES

Eligible projects include re-powering, retrofitting of existing engines and vehicles, and replacing older equipment with new low-emission models. Guidelines for each project type may differ, details may be found at the ARB website:

<http://www.arb.ca.gov/msprog/moyer/guidelines/current.htm>

ON-ROAD AND OFF-ROAD HEAVY DUTY VEHICLES

Instructions: Fill out the application on the CAPCOA Public Website, including a cost-estimate for the new equipment, and an Air Resources Board Executive Order certifying the new engine or equipment. Executive Orders may be found at the ARB website: <http://www.arb.ca.gov/html/eo.htm>, or provided by new equipment dealer.

AGRICULTURAL SOURCES

Examples: Irrigation pumps, harvesters. Must be exempt from the Diesel Engine Airborne Toxic Control Measure.

Instructions: Fill out the application on the CAPCOA website, including a cost-estimate for the equipment, original equipment registration documents, and an ARB Executive Order certifying the new engine or equipment. Executive Orders found at the ARB website: <http://www.arb.ca.gov/html/eo.htm> or provided by new equipment dealer.

MARINE VESSELS

Examples: Tug boats, fishing vessels, ferry boats.

Instructions: Fill out the application on the CAPCOA website, including a cost-estimate for the new equipment, US Coast Guard Documentation Number, CA vessel registration number, and cost-estimate for the equipment.
