

Welcome to Digital Reel

This software contains all the scanned copies of permits for Wells and Septic systems that are located on our microfiche. Digital Reel will only have records dating from late 1962 through July 1991. Call the Environmental Health Division (EHD) at 530/225-5787 for records from August 1991 to the current year. Also, contact EHD for non-conventional septic systems.

The main search field is by the "Road Index" Roll numbers. (R & EL)

Helpful Tips

- Some road names today may not have existed in the 1960's, 1970's, and 1980's. If you do not find your road name in the Road Index you may have to use the nearest largest county road.
- Easiest and quickest way to find a well or septic permit is to find a copy of the original Dwelling permit. The information on that application is most likely the same information on the Well or Septic permit. (Owners name, Contractor name, older parcel number, older address, Lot number, and Dates)
- You can call the Building Division at 530/225-5761 or EHD to request the original building permit number.

Important Dates

Years Permits were established

- Well permits June 30, 1969
- Building permits 1964
- Septic permits 1962/1963
- Mobile Home Utility permits Jan. 1, 1969

User guide for Road Index

Road Index is alphabetized by the road name.

*Some road names today may not have existed in the 1960's, 1970's, and 1980's. If you do not find your road name in the Road Index you may have to use the nearest largest county road.

Open the index and scroll through the sheets to the road you are looking for.

Example, if you are looking for Bidwell Road. Scan through the sheets to the "B's" If more than one Bidwell Road exists it will show Area of the county.

The next two columns identify which Microfiche Roll to look at. There are two, Roll R and Roll EL.

When looking at Bidwell Road, Hat Creek, there are microfiche sheets for both rolls.

Roll R is (3) 1979-1981 and Roll EL is (2) 258-284

Street	Area	Roll R	Roll EL	AKA
Bidwell Road	Hat Creek	(3) 1979-1981	(2) 258-284	
Bidwell Road	Redding	(3) 1983-2012		

(How to read that) The (3) identifies the Roll number, so R3 and 1979-1981 are the page numbers.

Now take this information and open the Digital Reel software.

A screenshot of a microfilm viewer interface. The interface has a dark background. At the top left, it says 'Roll Number: R-3'. At the top center, it says 'PAGE: 1 OF 2257'. At the top right, there are several icons and a 'VIEW FILM' button. The main area shows a white title page with the text: 'RECORDS OF Shasta County Health Department'. Below that, it says 'FILMED BY REED'S MICROFILM SERVICES REDDING, CALIFORNIA'. There are navigation arrows on the left and right sides of the page.
