

## Water & Environmental Programs

### About the Programs

USDA Rural Development offers a variety of **loan and grant programs** to help improve rural water and wastewater systems in rural communities with populations of 10,000 or less. Applications are accepted year-round through our new online application system, **RD Apply**, or by contacting a staff member.

### Meet the California Team

We have a committed group of staff across the state ready to help make deals happen. Find your county representative and learn how Rural Development can help support your water, wastewater and storm water projects.

#### Pete Yribarren, Water Programs Director
