### CFR Title 40, Part 61 Definition

**Demolition means** the wrecking or taking out of any load-supporting structural member of a facility together with any related handling operations or the intentional burning of any facility.

**Renovation means** altering a facility or one or more facility components in any way, including the stripping or **removal** of RACM (**Regulated Asbestos-Containing Material**) from a facility component. Operations in which load-supporting structural members are wrecked or taken out are demolitions.

**Facility means** any institutional, commercial, public, industrial, or residential structure, installation, or building (including any structure, installation, or building containing condominiums or individual dwelling units operated as a residential cooperative, but excluding residential buildings having four or fewer dwelling units); any ship; and any active or inactive waste disposal site.
