## PRESS RELEASE

FOR IMMEDIATE RELEASE

Date: January 27, 2022  
Contact: Jim Whittle, (530) 225-5787

### **NOTICE OF EXTENSION OF DEADLINE TO SUBMIT THE RIGHT-OF-ENTRY PERMIT (ROE) FOR THE STATE FAWN FIRE DEBRIS REMOVAL PROGRAM (OES PROGRAM) OR TO APPLY FOR A DEMOLITION PERMIT AS REQUIRED FOR THE ALTERNATIVE PROGRAM**

Shasta County - Shasta County is working with the California Governor's Office of Emergency Services (OES) and other State and federal partners to facilitate the safe handling and removal of fire-generated debris and ash from structures destroyed by the Fawn Fire (OES Program). Phase One, removal of household hazardous waste from destroyed structures by the Department of Toxic Substances Control, has already been completed and Phase Two is under way.

Phase Two of the OES Program is where OES, CalRecycle, and the state contractor, perform debris removal and property cleanup at no cost to the property owner. Property owners who elect to participate in the OES Program are required to submit a completed Right-of-Entry Permit (ROE) to the Shasta County Environmental Health Division to have work completed. All debris removal activities performed under the OES Program will be provided at no direct cost to property owners; however, certain insurance debris removal payment benefits received by property owners will be required to be remitted to the State or County for the purpose of offsetting costs and to comply with State and Federal law prohibiting the duplication of benefits.

The ROE and checklist of needed documents that must be presented when submitting can be found on the Shasta County Environmental Health Division website at [ehd.co.shasta.ca.us](http://ehd.co.shasta.ca.us).

If a property owner is interested in having the OES Program remove ash, debris, metal, hazard trees, and the house foundation, please submit the ROE as soon as possible. **The deadline to submit the ROE has been extended to January 31, 2022. This deadline is unlikely to be extended.** Once the ROE is completed, please submit or mail to the Environmental Health Division at 1855 Placer Street, Suite 201, Redding, CA 96001, or [scehd@co.shasta.ca.us](mailto:scehd@co.shasta.ca.us). Call (530) 225-5787 with questions or for more information.

Fire debris must be properly removed from properties containing structures that were destroyed by the Fawn Fire that are ineligible for the OES Program or for which an ROE is not submitted by the deadline. Such properties must participate in the Alternative Program, and may be eligible for no cost Demolition Permits and vouchers for the disposal of fire debris at the West Central Landfill (up to \$2,000 for properties with a single-family residence, mobile home, or manufactured home that was at least 50% damaged or destroyed). **The deadline to apply for the Demolition Permit has been extended to January 31, 2022. The deadline to complete debris removal under the Alternative Program is April 1, 2022.**
