

GENERAL PLAN AMENDMENT APPLICATION
INFORMATION CHECKLIST

APPLICATION CHECKLIST: All of the following listed items must be included when you submit your application (Please be advised that these are modified occasionally without notice):

1. Twenty (20) copies of the application and related materials.
2. Twenty (20) copies of the Environmental Assessment.
3. Twenty (20) copies of the Assessor's Plat map.
4. Twenty (20) copies of the U.S.G.S. map (photocopies are acceptable).
5. All applicable filing fees (Planning, Environmental Health and County Fire Department fees).
6. One (1) copy of a signed "Authorization to Enter Private Property" form.
7. A "Statement of Agency" form signed by the applicant authorizing representation by a person or agency other than himself (if this representation is intended).
8. Five (5) copies of a signed verification form from the Shasta County Regional Transportation Planning Agency transportation modeling staff (City of Redding Public Works Dept.) indicating that a Congestion Management Program (CAMP) Traffic Impact Analysis (TA) has been initiated. (Note: This requirement is only applicable where the project has the potential, either separately or in conjunction with other nearby development, to generate 1,500 or more vehicle trips per day (See attached information regarding Vehicle Trip Conversion Table).
9. A site plan or map showing the location of all schools within 1,000 feet of any project facility likely to emit potentially hazardous air contaminants.
10. If applicable, provide ten (10) copies of narrative description of all the components of the proposed development.
11. Two (2) copies of a will-serve letter from any water, sewer or other service district that the site is located in, indicating the availability information (to be submitted to the Environmental Health Division).
12. Sewage disposal and water availability information (to be submitted to the Environmental Health Division).
13. If a General Plan land use MAP is requested to be changed, provide an attached sheet which lists the Assessor's Parcel Numbers. Also, include a description of the proposed change and an explanation of why the change is appropriate and whether it is consistent with the existing policies and objectives of the General Plan.
14. If a change to the General Plan TEXT is requested, provide an attached sheet which describes in detail your proposed amendment and the reasons why it is appropriate, add any copies of pages of text and/or maps and reasons why it is to be changed. Also provide an analysis as to whether it is consistent with the existing policies and objectives of the General Plan.

APPLICATION REVIEW PROCEDURE

1. The applicant should discuss the proposed project with staff, normally at the public counter. For larger or more complex projects, a meeting should be scheduled.
2. The applicant prepares the application materials and files them with the Planning Division.
3. Staff reviews the application for completeness. Within thirty (30) days after filing, written notice is sent to the applicant indicating the application is either:
 - a) "complete", and processing will continue, or
 - b) "incomplete", and more information must be submitted before processing can continue.
4. After the application is complete, staff conducts environmental and technical reviews, and prepares recommended conditions of approval. Written notice is sent to the applicant regarding the conclusions of staff's review.
5. The Planning Commission holds a public hearing. The Commission may approve, approve subject to conditions, deny the application, or continue the matter to another date.
6. The decision of the Planning Commission may be appealed to the Board of Supervisors.

The appeal must be filed within a specified time following the Commission's decision, as follows:

Use Permit - Variance - Rezoning: 5 calendar days

Tentative Maps: 10 calendar days

Extension of Time for Tentative Maps: 15 calendar days

7. The decision of the Planning Director regarding Administrative Permits and Zoning Permits may be appealed to the Planning Commission within **5 calendar days** of the decision.

PROJECT # _____

AUTHORIZATION TO ENTER PRIVATE PROPERTY

Government Code Section 65105 authorizes County Planning Division personnel, in the performance of their duties, to enter property and make examinations and surveys which do not interfere with use of the land by those persons lawfully entitled to the possession thereof. Often times responsible and trustee agencies must also be consulted and given the opportunity to review and comment on proposed projects, necessitating their entry onto the property in order to obtain all relevant information needed to process an application in a timely way.

If County and affected agency personnel are not able to enter the project site/property, significant delays in the processing of the project, particularly the environmental review of the project, could occur and the project applicant may be required to hire consultants to submit information necessary to prepare environmental documents addressing the project site.

I have read and understand the foregoing. I authorize the County and other affected personnel to enter the property located at:

_____ for the limited purpose of examining the property with respect to the proposed project/land-use, upon making reasonable efforts to give me a 24-hour advance notice of intended entry.

PUBLIC INFORMATION/PROJECT ASSISTANCE

The Staff from the Shasta County Department of Resource Management is available to review and discuss questions relating to land use matters such as zoning, general plans, land divisions and use permits. The Department staff has copies of various County codes and regulations plus related maps which can be referred to. Furthermore, the staff is happy to assist individuals with filing applications and to provide help in the processing of permit requests.

When seeking information regarding a potential development, it is advisable to furnish a detailed description of what is intended, the timing of the particular use, and an assessor's parcel number(s) of the property on which the use will occur. Such information will help ensure a faster and more complete response from the Department than might otherwise result.

After review of a proposed project, it is sometimes necessary to inform applicants that a particular project being suggested, either because of its location or design, does not satisfy County development criteria and, therefore, cannot be recommended for approval. In these situations, the staff endeavors to work with applicants to suggest either alternative development sites or modifications in site development plans that would be consistent with County standards.

The Department Director and staff welcome suggestions that may add greater efficiency to our review and processing of proposed development projects. The Department's objective is to provide efficient and courteous service to all citizens and property owners seeking our assistance.

ENVIRONMENTAL REVIEW PROCEDURE

The California Environmental Quality Act (CEQA) required an assessment of environmental impact for all projects requiring a permit or other discretionary approval from Shasta County decision-making bodies. The County Environmental Review Officer is responsible for making initial environmental determinations and recommending appropriate environmental findings to the decision-making body for adoption.

After a review of pertinent information, the Environmental Review Officer will make an initial environmental determination. This determination will result in one of the following:

1. An Exemption - This means your project meets criteria for exemption from the requirements of the CEQA. No additional environmental review is required.
2. A Negative Declaration - This means your project will not result in any significant effects on the environment. If conditions (mitigation measures) are applied to assure that no significant effects will occur, the environmental document is called a Mitigated Negative Declaration.
3. An Environmental Impact Report (EIR) - This means your project may have a significant effect on the environment and additional information is necessary to determine appropriate mitigation measures. The Environmental Review Officer may give you an option of preparing a "special study" (i.e., traffic study, archaeological survey, etc.) to address the issue(s) instead of preparing an EIR. If an EIR is to be prepared, it must be prepared by a third party consultant selected through the established consultant selection process. An information sheet describing this process and a current consultant list are available upon request.

Please fill out the attached Environmental Information Form as accurately and completely as possible. Failure to do so may result in delays in processing your application.

If you need assistance or if you have any questions, please contact the Shasta County Planning Division. Copies of CEQA and State EIR Guidelines may be obtained from the Planning Division for a small fee which covers the cost of reproduction.
