  - 1 person in their 70s
  - 1 person in their 80s
- **SECOND DOSE CLINIC:** If you received your first dose of Moderna at the Shasta Lake Community Center on Jan. 30 (or earlier), you can get your second dose on Saturday, Feb. 27, at the City of Shasta Lake Community Center, 4499 Main St. Last names of N-Z, arrive between 10 a.m. and noon. Last names of A-M, arrive between noon and 2 p.m. Bring your CDC card and [this paperwork](#). **Please wear a short-sleeved shirt.** Find information about other second-dose clinics at [www.ShastaReady.org](http://www.ShastaReady.org); click on “Vaccinations.”
- In recent weeks, testing volume has decreased in Shasta County and throughout the state and country. Our case numbers are declining and more people are being vaccinated, which are big steps in the right direction. However, testing is still very important, as it helps us quickly identify and isolate new cases so they don’t spread COVID to others. Identifying new cases also helps us monitor for mutations in the virus. People who are fully vaccinated should still get tested regularly, including after they are exposed to a person who tested positive. Testing is free and available by appointment or on a walk-in basis. Learn more at [www.ShastaReady.org](http://www.ShastaReady.org) – click on “Get tested.”
