97	14	19
Confirmed Cases Today	Currently Hospitalized in Shasta County	In Quarantine
2	3	140
Negative Tests	Total Tests to Date	Total Deaths
11,131	11,228	4
CURRENT SITUATION		
Situation Summary:	<ul style="list-style-type: none"> We have two new cases today. They are a woman in her 40s and a woman in her 50s. One had symptoms and neither is hospitalized. Though we had two cases today, our total only increased by one from yesterday. One of yesterday's patients, a man in his 30s, was determined to live outside Shasta County, so they will be counted in their county of residence. The state database has been down all day, so we are reporting the same number of negative tests as yesterday. The majority of Shasta County cases have been due to close contact with someone who tested positive, travel (either to another county or hosting an out-of-town guest), or an undetermined source. It's important to practice safe physical distancing and wearing face coverings not just when you're in public, but when you're in close contact with people outside of your household. Anyone can be tested for COVID-19. If you have symptoms, contact your healthcare provider or call (530) 225-5591 to access testing in Redding or the Intermountain area. People with or without symptoms can sign up for testing at Shasta College by going to https://lhi.care/covidtesting. Appointments are required.
