6	9 (8 Shasta residents, 1 non-resident, 2 in ICU)	169
Negative Tests	Total Tests to Date	Total Deaths
12,357	12,475	4
CURRENT SITUATION		
Situation Summary:	<ul style="list-style-type: none"> We have six new cases today. Three had symptoms, three did not, and one is hospitalized. They are a girl under 13, a man in his 40s, three women in their 50s and a woman in her 70s. About the numbers: Total confirmed cases means the number of people who have tested positive for COVID through a polymerase chain reaction (PCR) test, the nasal swab. While some labs are doing antibody tests, these numbers are not included in our daily totals. If a person tests positive for antibodies through a blood test, we would confirm that the person currently has COVID through a nasal swab before including them in our case count. Have a question? We have answers! Check out our Frequently Asked Questions page at www.co.shasta.ca.us/covid-19/faq. Anyone can be tested for COVID-19. If you have symptoms, contact your healthcare provider or call (530) 225-5591 to access testing in Redding or the Intermountain area. People with or without symptoms can sign up for testing at Shasta College by going to https://lhi.care/covidtesting. Appointments are required.
