276	4	29	33
Confirmed Cases Today	Currently in the Intensive Care Unit (ICU)	In Quarantine	Released from Isolation to Date
8	2	164	235
Negative Tests Today	Negative Tests to Date	Total Tests	Deaths
554	20,071	20,347	8

CURRENT SITUATION

- We have 8 new cases today. Six had symptoms and none are hospitalized. They are a teenage girl, a teenage boy, two women in their 20s, two women in their 30s, a man in his 50s and a woman in her 50s.
 - We are sorry to have to report a death today. The patient was a man in his 80s.
- The map that shows the rate of COVID-19 in Shasta County has been updated to also include case numbers. **Note:** Total cases in the table do not match the total number of cases above because cases are not added to the table until they're uploaded to the state database, which can take several days. The map can be found at www.ShastaReady.org; click on "Data and statistics" and scroll down to the "COVID-19 Community Impact" dashboard. Use the slider at the bottom of the dashboard to see additional data.
- Rates, like percentages, are a way to give a snapshot of our situation on a level playing field – if each of these regions had 100,000 people, this is how many COVID cases they would have. This allows us to compare the regions equally.

Region	Rate per 100K	Number of cases
Shasta Lake	150.6/100,000	33 cases
Palo Cedro	141.2/100,000	29 cases
Redding	131.0/100,000	99 cases
Anderson/ Cottonwood	167.3/100,000	34 cases
East County	47.3/100,000	9 cases
West County	55.6/100,000	12 cases
