INCIDENT FACTS AND SUMMARY			
Total Confirmed Cases:	Hospitalized in Shasta County	In Isolation	Active Cases
652	2	26	28
Confirmed Cases Tuesday	Currently in the Intensive Care Unit (ICU)	In Quarantine	Released from Isolation to Date
7	0	159	612
Negative Tests Tuesday	Negative Tests to Date	Total Tests	Deaths
254	40,851	41,503	12

CURRENT SITUATION

- We had 7 new cases on Tuesday. Six had symptoms, one is still under investigation and none are hospitalized. They are:
 - Two women and one man in their 20s
 - Two women in their 30s
 - One woman and one man in their 40s

Shasta County remains in the orange (“moderate”) range after Tuesday’s statewide data update. Our case rate remained steady at 1.4 cases per 100,000 residents, and our positivity rate increased from 1.2 to 1.7 percent.

Anyone can be tested for COVID-19. If Shasta County’s testing volume is higher than California’s, the state reduces our case rate metric, which is one of the two measures established by the state to determine how open our county can be. Testing is an important surveillance tool that helps public health know how the disease is spreading in our community. Go to ShastaReady.org and click on “Get tested” to find out the best option for you.
