<b>1,730</b>	<b>69,129</b>	<b>71,759</b>	<b>34</b>

### CURRENT SITUATION

- We had a total of 178 new cases on Friday and Saturday, including 77 men and 101 women. They are:
  - 7 children under age 13
  - 19 teenagers
  - 38 people in their 20s
  - 40 people in their 30s
  - 23 people in their 40s
  - 21 people in their 50s
  - 13 people in their 60s
  - 13 people in their 70s
  - 2 people in their 80s
  - 2 people of unknown age
- Community spread is growing rapidly in our community, and many of our newer cases have been connected with Halloween parties. This virus spreads through close contact with an infected person, so it is important to limit your contact with others. Please stay home as much as possible, stay physically distanced when you do go out, wear face coverings, wash hands frequently, and stay home when sick. If you are in a local business where most people are not wearing face coverings, we would recommend that you go back at a less busy time or take advantage of take-out and delivery options.
- Have you tested positive for COVID-19? You can take action right away to stop the spread. If you've received a positive test result and haven't yet heard from Public Health, go to [www.ShastaReady.org](http://www.ShastaReady.org), click on "Quarantine and Isolation Instructions" and review the instructions. Please alert anybody who has been within 6 feet of you for 15 minutes or more, starting from 48 hours before your symptoms began (or 48 hours before your positive test, if you are asymptomatic). They should follow the self-quarantine instructions. Containing the spread will protect others from COVID-19 and get Shasta County back on the road to a less-restrictive tier.
