CURRENT SITUATION

- We had a total of 185 new cases on Sunday and Monday, including 84 men and 101 women:
 - 8 children under age 13
 - 12 teenagers
 - 47 people in their 20s
 - 33 people in their 30s
 - 21 people in their 40s
 - 23 people in their 50s
 - 21 people in their 60s
 - 10 people in their 70s
 - 7 people in their 80s
 - 3 people over age 89
- *Due to high case counts and delays in lab reporting, public health is unable to provide timely education to all COVID-19 cases in our community, and therefore, we do not have an accurate count of people who are on isolation or quarantine. People who test positive should self-isolate and notify their close contacts. Instructions can be found at ShastaReady.org under “Quarantine and Isolation.”
- A negative test is not required for someone who has been on isolation or quarantine to return to work. If you **have had symptoms**, you may [return to work or school](#) when at least 10 days have passed since symptoms first appeared, AND at least 24 hours have passed with no fever (without use of fever-reducing medications), AND other symptoms have improved. If you **never develop symptoms**, you may [return to work or school](#) 10 days after the date of your first positive test. If you were a close contact, you may [return to work or school](#) 14 days after your last exposure. Please **do not** return to work or school until you reach the end of your isolation or quarantine period, **even if you have no symptoms**.
- The state guidance that describes what can be open now and what modifications are required is listed on ShastaReady.org under “Roadmap to Recovery,” and it is grouped by industry.
