| Newly Received Negative Tests | Number of Tests in the Past 14 Days (+ and -) | Total Tests                     | Deaths                          |
| <b>737</b>                    | <b>8,130</b>                                  | <b>161,546</b>                  | <b>179</b>                      |

### CURRENT SITUATION

- We had 32 cases Wednesday, including 16 men, 15 women and 1 person of unknown age and gender:
  - 3 children under 13
  - 5 teenagers
  - 5 people in their 20s
  - 6 people in their 30s
  - 2 people in their 40s
  - 4 people in their 50s
  - 3 people in their 60s
  - 1 people in their 70s
  - 1 people in their 80s
  - 1 person over age 89
- **SECOND DOSE CLINICS:** The following second-dose clinics are scheduled this week:
  - March 5: For those who received Moderna on Feb. 5 at Shasta College
  - March 6: For those who received Moderna on Feb. 6 at Shasta College
  - March 6: For school staff who received Pfizer on Feb. 13 at Vibra
  - Times and locations for all of these clinics are at [www.ShastaReady.org](http://www.ShastaReady.org); click on “Vaccinations.”
- In January, we had 2,199 confirmed cases of COVID, and in February we just had 674. This significant drop is some long-awaited great news, and we want to ensure that we stay on the right track. Retail businesses have opened up to more people, restaurants have reopened indoors, some youth sports have begun and indoor church services have resumed. This means people will be in closer contact with each other, which increases the risk of spreading COVID. To help avoid an increase in cases, please continue to wear your mask in public, practice physical distancing, stay home when you’re sick, get tested regularly and get immunized when it’s your turn. Together, we can keep our case rates moving down, even as things open back up.
