Newly Received Negative Tests	Number of Tests in the Past 14 Days (+ and -)	Total Tests	Deaths
816	6,640	178,157	207

CURRENT SITUATION

- We had 19 cases Tuesday, including 9 men and 10 women:
 - 1 teenager
 - 6 people in their 20s
 - 4 people in their 30s
 - 3 people in their 40s
 - 3 people in their 50s
 - 1 person in their 70s
 - 1 person over age 89
- We are sorry to report three deaths today. The patients were a man in his 60s, a man in his 70s and a man in his 80s.
- This report includes a weekly update to our total case numbers, as we have been conducting case investigations to correct reported cases that were duplicates or out-of-county records.
- Healthy people age 50 and older will be eligible to receive vaccine starting tomorrow, April 1. If you are in this group and would like to make an appointment, please go to www.ShastaReady.org, click on "Vaccinations" and follow the instructions in Step 1.
- Easter Sunday is just a few days away, and so far, it looks like no rain. With a little creativity, you can make a few adjustments to your Easter traditions to reduce risk without reducing any of the fun. Hold your egg hunt outdoors, and if you want to include more than three households, moving your Easter brunch to a virtual meeting is a great way to safely include all of your loved ones.
- Spring break is next week, and some of our local high schools will then switch from a hybrid model to all students on campus, four days a week. This is an exciting step forward, and we encourage students and families to continue to take precautions over spring break so we don't see an uptick in cases when school resumes. Please do your part and remember to wear a mask, keep your distance, get tested, and when it's your turn, get vaccinated. This will help us keep cases down, especially now that we are getting back to some of the activities that we've had to put on hold for so long. Learn more at www.ShastaReady.org.
